Welcome to Fossil Tattoo & Art Studio. We pride ourselves in providing superior training in Basic – Advance Tattoo Artist certification. Our Institute is based on a mission to "enhance the Tattoo industry by creating artists who use skin as their canvas combining skill, art, and vision in a connected experience for their clients."

Our various programs are designed to prepare you for creating a fulfilling career as a tattoo artist. Graduates of Fossil Academy are well prepared to begin their careers as a tattoo artist and have been very successful in the industry.

Our program is based on true artistry. Every course taught has the underlying base of pure art. Without the respect for true art, one cannot be successful in this industry. Art is a connection between the soul and a painting. We provide you the tools to build that connection for you and your clients. Throughout the program we teach you safety, equipment, color theory, design, skin anatomy/conditions, business operations, client services, and law.

We are excited that you have taken the first step in researching Tattoo Artist programs. We are confident that you would not be disappointed in the education you would receive here. I Sudipto Biswas, owner and instructor have had the honor of guiding many students through the process and challenges of becoming some of the best tattoo artists out there today.
